MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (hereafter referred to as the "MOU") is valid between the parties for three years (2021-22, 2022-23, and 2023-24) from 21st March 2022.

SVSSC Government Degree College, Sullurpet, S.P.S.R. Nellore District, Andhra Pradesh, is represented here by the Department of Computer Science (hereafter referred to as the First Party).

AND

R.Hari Prasad is the Head of Deeksha Technologies, located near the V.R.C Center in Nellore, Andhra Pradesh (hereafter referred to as the Second Party).

Whereas:

- The first party is SVSSC Government Degree College, Sullurpet, S.P.S.R. Nellore District, a higher education institution.
- DEEKSHA TECHNOLOGIES believes that collaboration and cooperation will enable them to make better use of their resources and provide better services to their customers.

- The parties intend to collaborate and will concentrate their efforts in the areas of skill-based training, education, and research.
- Both parties, as legal entities in their own right, wish to sign this MOU in order to advance their mutual interests.
- The second party provides skill development, education, and R&D services in Python, R-Programming, AI, and Data Science, among other areas.
- The second party, promoted by Hari Prasad of Nellore, is involved in professional training of students in the most recent software and hardware areas.
- Provide related information, branches, and dimensional information about the industry with which the MOU is concerned.

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERE TO AGREE AS FOLLOWS:

CO-OPERATION

- Both Parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations within the Institution and its related wings. The Parties shall keep each other informed of potential opportunities and shall share all information that may be relevant to secure additional opportunities for one another.
- First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to them in developing suitable teaching / training systems, keeping in mind the needs of the industry, the Second Party.
- This Memorandum of Understanding governs the general terms of cooperation. The Parties will work together and enter into all relevant agreements, deeds, and documents (the "Definitive Documents") as soon as reasonably possible to carry out the actions contemplated by this MOU. The parties must agree on the duration of the Definitive Documents. This MOU represents the parties' entire understanding as to the subject matter hereof and supersedes any prior understanding between the parties on the subject matter hereof.

SCOPE OF THE MOU

- Graduates from these institutions may play an important role in technological advancement, innovation, and industry competitiveness. Both parties believe that close collaboration between the two would greatly benefit the student community in terms of improving their skills and knowledge.
- Curriculum Development: The Second Party will provide valuable input to the First Party in terms of teaching/training methodology and will appropriately customize the curriculum so that the students fit into the industrial scenario meaningfully.
- Interaction between industry and institutions will provide insight into the industries' latest developments/requirements; the Second Party will allow the First Party's Faculty and Students to visit its group companies and participate in Industrial Training Programs for the First Party. This association's industrial training and exposure to students and faculty will boost confidence and prepare students for a smooth transition from academic to working life. The

Second Party will make available its Labs/Workshops/Industrial Sites to learners enrolled with the First Party in order for them to receive hands-on training.

- Research and Development: Both parties have agreed to conduct joint research in the fields of Python and R-Programming.
- Second Party will train First Party students on emerging technologies in order to bridge the skill gap and prepare them for the workforce.
- The Second Party will provide the necessary assistance in delivering guest lectures on technology trends and in-house requirements to the First Party's students.
- First Party to train First Party faculties for imparting training in accordance with industrial requirements, taking into account National Occupational Standards in the concerned sector, if available.
- Trained Student Placement: The Second Party will actively participate in the delivery of training and the placement of First Party students into internships or jobs, as well as facilitating placements for all students. The second party will absorb at least half of the trained students.
- Both Parties will obtain all necessary internal approvals, consents, permissions, and licences to offer the programmes on the terms specified herein.
- The SVSSC Government Degree College, Sullurpet, SPSR, Nellore District, has made no financial commitment. The first party to implement any of the MOU's programmes If there are any financial considerations, they will be addressed separately.

INTELLECTUAL PROPERTY

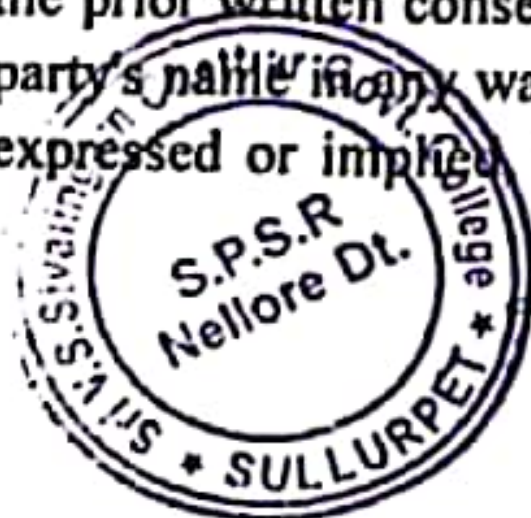

- Nothing in this MOU grants either party any right, title, interest, or licence in or to the other party's intellectual property (including but not limited to know-how, inventions, patents, copy rights, and designs), whether by express grant, implication, estoppels, or otherwise.

SUITABILITY

- This Agreement will remain in effect until either party expressly terminates it on mutually agreed-upon terms, at which point Deeksha Technologies, as the Second Party, will take effective steps to implement this MOU.
- Both parties may terminate this MOU by providing 30 calendar days' written notice. Both parties must discharge their obligations in the event of termination.

RELATIONSHIP BETWEEN THE PARTIES

- It is expressly agreed that SVSSC Government Degree College, Sullurpet and DEEKSHA TECHNOLOGIES, Nellore are acting as independent contractors under this MOU, and that the relationship established under this MOU is not to be construed as a partnership. Without the prior written consent of the other party, the other party is not authorised to use the other party's name in any way, to make any representations, or to create any obligation or liability, expressed or implied, on behalf of the other party. Under the terms of this MOU, neither

The Parties shall keep each other informed of potential opportunities and shall share all information that may be relevant to secure additional opportunities for one another.
- First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to them in developing suitable teaching / training systems, keeping in mind the needs of the industry, the Second Party.
- This Memorandum of Understanding governs the general terms of cooperation. The Parties will work together and enter into all relevant agreements, deeds, and documents (the "Definitive Documents") as soon as reasonably possible to carry out the actions contemplated by this MOU. The parties must agree on the duration of the Definitive Documents. This MOU represents the parties' entire understanding as to the subject matter hereof and supersedes any prior understanding between the parties on the subject matter hereof.

SCOPE OF THE MOU

- Graduates from these institutions may play an important role in technological advancement, innovation, and industry competitiveness. Both parties believe that close collaboration between the two would greatly benefit the student community in terms of improving their skills and knowledge.
- Curriculum Development: The Second Party will provide valuable input to the First Party in terms of teaching/training methodology and will appropriately customize the curriculum so that the students fit into the industrial scenario meaningfully.

Interaction between industry and institutions will provide insight into the industries'

latest developments/requirements; the Second Party will allow the First Party's Faculty and Students to visit its group companies and participate in Industrial Training Programs for the First Party. This association's industrial training and exposure to students and faculty will boost confidence and prepare students for a smooth transition from academic to working life. The Second Party will make available its Labs/Workshops/Industrial Sites to learners enrolled with the First Party in order for them to receive hands-on training.

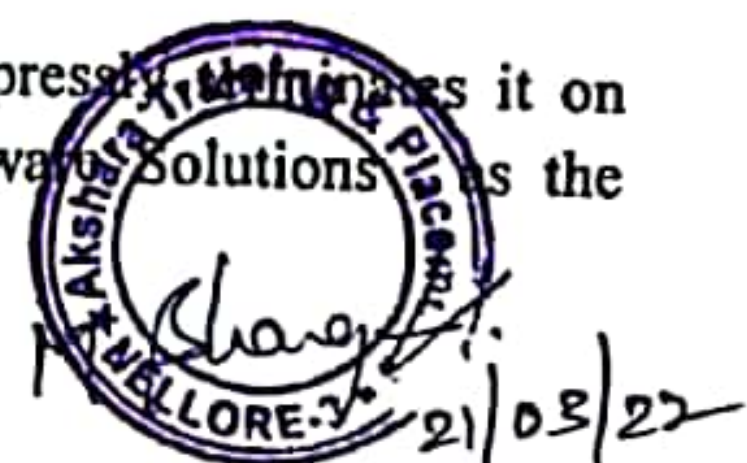

- Research and Development: Both parties have agreed to conduct joint research in the fields of Python and R-Programming.
- Second Party will train First Party students on emerging technologies in order to bridge the skill gap and prepare them for the workforce.
- The Second Party will provide the necessary assistance in delivering guest lectures on technology trends and in-house requirements to the First Party's students.
- First Party to train First Party faculties for imparting training in accordance with industrial requirements, taking into account National Occupational Standards in the concerned sector, if available.
- Trained Student Placement: The Second Party will actively participate in the delivery of training and the placement of First Party students into internships or jobs, as well as facilitating placements for all students. The second party will absorb at least half of the trained students.
- Both Parties will obtain all necessary internal approvals, consents, permissions, and licences to offer the programmes on the terms specified herein.
- The SVSSC Government Degree College, Sullurpet, SPSR, Nellore District, has made no financial commitment. The first party to implement any of the MOU's programmes If there are any financial considerations, they will be addressed separately.

INTELLECTUAL PROPERTY

- Nothing in this MOU grants either party any right, title, interest, or license in or to the other party's intellectual property (including but not limited to know-how, inventions, patents, copy rights, and designs), whether by express grant, implication, estoppels, or otherwise.

SUITABILITY

- This Agreement will remain in effect until either party expressly terminates it on mutually agreed upon terms, at which point Akshara Software Solutions as the

Second Party, will take effective steps to implement this MOU.

- Both parties may terminate this MOU by providing 30 calendar days' written notice. Both parties must discharge their obligations in the event of termination.

RELATIONSHIP BETWEEN THE PARTIES

- It is expressly agreed that SVSSC Government Degree College, Sullurpet and Akshara software Solutions Nellore are acting as independent contractors under this MOU, and that the relationship established under this MOU is not to be construed as a partnership. Without the prior written consent of the other party, the other party is not authorised to use the other party's name in any way, to make any representations, or to create any obligation or liability, expressed or implied, on behalf of the other party. Under the terms of this MOU, neither party shall have, nor shall represent itself as having, any authority to make agreements of any kind in the name of or binding on the other party, to pledge the other party's credit, or to extend credit on behalf of the other party.
- Any disagreement or difference arising from the interpretation or application of the MOU will be resolved through arbitration between the parties in accordance with the Arbitration Act of 1996. The arbitration will take place at the First Party's district headquarters. This undertaking is to be construed in accordance with Indian Law, with NELLORE's Courts having exclusive jurisdiction.

REPORT ON WORKSHOP

On June 20, 2022, in the Digital Classroom, the Institutional Quality Assurance Cell (IQAC) of Sri V.S. Sivalingam Chettiar Government Degree College hosted a workshop for faculty members on attaining programme outcomes. The workshop's chief guest, **Dr. SLB Sankar Sarma**, the college's principal, also talks about the importance of achieving results. The level of achievement of Program Outcomes, Program Specific Outcomes, and Course Outcomes is evaluated using a variety of indicators over the course of the academic year, according to IQAC coordinator **Dr. V. Raja**, who served as the event's host. Using the specified course outcomes as a guide, the faculty uses a continuous evaluation process to track each student's progress.

Sri T. Rajesh, Head of the Computer Science Department and Coordinator of the IQAC at NBKR Science and Arts College, Vidyanagar, served as the workshop's resource person. The overall attainment for a course is the sum of 40% of the internal assessment test attainment level and 60% of the university attainment level. Where n is the total number of course outcomes. The attainment level of the course is tabulated after calculating each course's results in percentage terms. There were 22 members of the academic staff in attendance. Physics professor Dr. J. Subrahmanyam thanked all of the participants for participating actively. The workshop is being held as a demonstration of the two colleges' commitment to carrying out the programmes outlined in the Memorandum of Understanding, NBKR Science and Arts College and Sri V.S. Sivalingam Chettiar Government Degree College.

REPORT ON WORKSHOP

The Institutional Quality Assurance Cell (IQAC) of Sri V.S. Sivalingam Chettiar Government Degree College organised a workshop on research methodologies-hands-on learning on January 3, 2022. At the workshop's opening ceremony, Dr. S. L. B. Sankara Sarma, the college's principal, welcomed the participants and the special guest. Dr.M. Ramakrishna Reddy, Principal of NBKR Science and Arts College, opened the session by outlining the value of research methodologies. He explained in his talk that there are eight main sections in a research paper: the title (cover page), the introduction, the literature review, the research methodology, the data analysis, the results, and the conclusion.

He provided a thorough explanation of how to conduct a research project during the second session. There were 18 members of the academic staff present. Physics professor Dr. J. Subrahmanyam thanked all of the attendees for participating actively. The workshop is being held as a demonstration of the two colleges' commitment to carrying out the programmes outlined in the Memorandum of Understanding, NBKR Science and Arts College and Sri V.S. REPORT ON WORKSHOP

The Institutional Quality Assurance Cell (IQAC) of Sri V.S. Sivalingam Chettiar Government Degree College hosted an OBE workshop for faculty members on June 30, 2022, in the Digital Classroom. The principal of the college **Dr. SLB Sankar Sarma**, the chief guest of the workshop, also discusses its significance. According to IQAC coordinator **Dr. V. Raja**, who presided over the event, outcome-based education is all the rage in Indian higher education right now. In many colleges, it is currently being quickly adopted. OBE is viewed as a huge step forward in improving education standards in general and helping Indian graduates compete with graduates from other nations. Here are four things about outcome-based compensation you need to know.

Dr. M. Ramakrishna Reddy, Principal of NBKR Science and Arts College, Vidyanagar, served as the workshop's resource person during the first session. He discussed the importance of talking about academic quality work, OBE components, Program Educational Objectives (PEO), Program and Course Outcomes, Mapping of Mission, PEOs, PLOs, and CLOs, the process of OBE, Continuous Quality Improvement (CQI) and Bloom's Taxonomy.

Sri T. Rajesh, Head of the Computer Science Department and Coordinator of the IQAC at NBKR Science and Arts College, Vidyanagar, served as the resource person for the second session. According to the speaker's explanation in his presentation, a constructive alignment is an approach to teaching that is outcome-based and in which the learning objectives that students are expected to meet are established before teaching even starts. To best achieve those objectives and determine the degree of success, teaching and testing strategies are then developed. It provides a framework for adjusting curriculum and assessment to address achieving those goals and standards. Constructive alignment is effective in designing teaching and assessment that help students learn, as opposed to keeping students in the dark about what is covered in their course of study or what they will be tested on. There were 22 academic staff members present. **Dr. J. Subrahmanyam**, a physics professor, thanked every one of the attendees for their active participation.

The workshop is being organized as a sign of commitment to implementing the programs between the two colleges, NBKR Science and Arts College and Sri V.S. Sivalingam Chettiar Government Degree College, as outlined in the Memorandum of Understanding.

SVSSC GOVERNMENT DEGREE COLLEGE, SULLURPET, TIRUPATI DISTRICT

DEPARTMENT OF PHYSICS - REPORT OF THE FIELD VISIT

The final year Physics Department students, along with the principal, teaching and non-teaching staff of the SVSSC Government Degree College, Sullurpet, went to the Satish Dhawan Space Centre in Sriharikota on June 30th, 2022, to witness the launch of the PSLV-C53 rocket.

On Thursday, June 30, 2022, the Indian Space Research Organization (ISRO) successfully launched PSLV-C53/DS-EO from the Satish Dhawan Space Centre in Sriharikota, with the ISRO's powerful rocket precisely placing the satellites in the intended orbit. At 6.02 p.m., ISRO's workhorse PSLV lifted off from the second launch pad, carrying three satellites: DS-EO, a 365 kg satellite, and NeuSAR, a 155 kg satellite built by Starec Initiative, Republic of Korea. The third was a 2.8 kg Scoob-1 from Nanyang Technological University in Singapore.

55th mission of PSLV

This was the 55th mission of the PSLV and the 15th mission of the PSLV-Core Alone variant. The PSLV-16 is the 16th rocket to be launched from the second launch pad. According to an ISRO press release, the mission's goal is to demonstrate the use of the spent upper stage of the launch vehicle as a stable platform for scientific payloads after satellite separation.

The four-stage, 44.4-meter-tall PSLV-C53 rocket, with a lift-off mass of 228.433, precisely injected the DS-EO satellite into an orbit 570 kilometres above the equator. The PSLV Orbital Experimental Module (POEM) DS-EO carries an Electro-Optic, multi-spectral payload with a 0.5 m resolution. The POEM activity uses the spent PS4 stage as an orbital platform to conduct scientific experiments. The PS4 stage will orbit the Earth as a stabilised platform for the first time.

POEM is powered by solar panels mounted around the PS4 tank and a Li-ion battery. It navigates using four sun sensors, a magnetometer, gyros, and NavIC. It has dedicated control thrusters powered by helium gas storage. It has a telecomm and feature. POEM carries six payloads, including two from Indian Space Start-ups, Digantara and Dhruva Aerospace, made possible by IN-SPACe and NSIL.

Speaking from the mission control room, ISRO Chairman **S. Somnath** stated that PSLV-C53 has placed the NSIL customer satellites in a precise orbit of 570 km. This is yet another major mission in June, following the successful launch of India's communication satellite GSAT-24 by Arianespace on June 22 from Kourou in French Guiana. Following the successful launch, all of the students, principal, and staff arrived at the college with full of joy.

After a successful launch, all of the students, principal, and staff members arrived at the college with full of joy and happiness.

REPORT ON FEILD TRIP

On April 1, 2022, 45 SVSSC Government Degree College B.Sc. (BZC) students went to the Nelapattu Bird Sanctuary. Nelapattu is situated in Andhra Pradesh's Tirupati District's Doravarisatram (M) neighbourhood. It is a crucial nesting location for spot-billed pelicans. Nelapattu's two primary plant communities are southern dry evergreen scrub and Barringtonia swamp forests. This is the largest breeding site in South East Asia for grey pelicans, with about 1,500 breeding each year. Since their arrival predicts good rains and bountiful crops, the residents of Nelapattu, Muchalagunta, Mylangam, and other nearby communities revere the birds as "celestial birds." Construction of bird sanctuaries is done to protect these birds and their species in order to preserve their habitat. For the protection of various species and their habitats, they are natural resources. It also supports the conservation and repopulation of these birds. On the trip, there is some very interesting interaction between the students and the staff from the forest department. The students are happy and joyful when they return to the college.

DEPARTMENT OF ECONOMICS

A REPORT ON THE FIELD VISIT

Objective

The methods used to purify water can be understood and analysed by students as part of economy and environment.

Brief Report

On June 16, 2022, the Department of Economics organized a field trip to the Mannarpolur Water Plant in Sullurpet Mandal as part of its economy and environment course. The Managing Director of the plant described various water purification techniques during this field visit. The cheapest and safest way to purify water is to boil it. When using the appropriate multimedia filters, filtration is one of the most efficient ways to rid water of the compounds produced by distillation and chlorination. He also gave the students an explanation of the water distribution procedures. Students have been explained the financial assistance and mark-up procedures by Economics Lecturer Sri M. Gouri Sankar Kumar. Additionally, he educated the students on the importance of having entrepreneurial skills. Students on this field trip also observed how the water purification equipment was powered.

Outcome

No matter if it's for daily needs or for health reasons, water is crucial to human existence. The students learned about the large-scale purification of water during this field trip, and they also became more conscious of the water's quality and how it might specifically impact human health. The students' trip also helped them realise that it is difficult to provide water to the public directly from the main supply. All of the students returned to the college in good spirits after this field trip, during which they also learned about the economics involved in the procedure.
