REPORT

International Ozone day for the preservation of Ozone layer is celebrated on 16th of Sep every year as per Montreal protocol signed on 1987 . It is to bring awareness among the people about the depletion of Ozone layer and try to find a way to prevent the depletion to some extent . India is also making awareness on the ozone layer depletion.

On behalf of the day Department of Chemistry organize the ozone day to make aware of the students to protect the depletion of the layer. This meeting is chaired by the principal of our college Dr. SLB Sankar Sarman and IQAC Coordinator and HOD of Physics Dr. V.Raja.

On the occasion Department of Chemistry has given elaborate explanation about the factors cause depletion of Ozone layer and how to protect Ozone layer from Chloroflouro Carbons which cause damage to protect Ozone layer .

Dr. M Uma Sankar Raju HOD of Botany briefed about Montreal protocol and explain the ways to protect the Ozone layer.

Later Principal of the college Dr. SLB Sankar Sarman and IQAC Coordinator and HOD of Physics Dr. V.Raja.also briefed about the Ozone layer depletion. Some students of Final Degree also participated and have given valuable information about Ozone .

Finally the meeting is ended by the Oath of thanks by Smt . D.Usha Rani madam Head of the Department of Mathematics .
