

SRI V.S.SIVALINGAM CHETTIAR GOVERNMENT DEGREE COLLEGE

SULLURPET, SPSR NELLORE DISTRICT, ANDHRA PRADESH

DEPARTMENT OF MATHEMATICS - ARITHMETIC ABILITY

SUMMARY REPORT: 2018-19

The Department of Mathematics developed the Arithmetic Ability add-on programme for the 2018–19 academic year in accordance with the college's policy to improve students' employability skills. The 30-hour course is scheduled from October 15 to November 11, 2018. All twenty-two final-year students who registered for the programme successfully completed the course. The institution awarded certification to successful participants. Developing skills to pass competitive exams for better job opportunities is the course's primary goal. An important component of competitive exams in India for jobs is the arithmetic ability section. In particular, the arithmetic ability section is one of the most important sections in recruitment exams in India, which include but are not limited to those for banking, railways, the Staff Selection Commission, insurance, teaching, the UPSC, and many others. For their hiring procedures, many businesses use aptitude tests, whether they are online or offline. In order to instil confidence in the students, every effort has been made throughout the course to accommodate basic mathematical concepts. After successfully completing the course, the students were able to comprehend and apply mathematical concepts, analyse problems logically, approach problems in different ways, and use those concepts in their daily lives.
